

# Eco-Schools Action Plan

SCHOOL NAME St John's Academy

Eco-Schools Topic: Litter

Date Range of this Plan: 2015 - 2016

Our overall aims for this Topic are: Reduce littering around the school

Action	Who's in charge?	When will it be done by? (if ongoing, when did it start?)	How can we monitor it?	How will we know when we're successful?	How much will it cost?	Did it work? Any ideas for the future?
Reduce food waste in corridors and stairwells	Fionagh MacFarlane	Completion by April 2016	Visual checks whilst in corridor.  Consultations with Tutor Groups and End of year survey	Little or no food waste	£0	Little change for a long time. Prefects struggling to police this.  Targeted by Mr Hagney during year group assemblies. Obvious reduction. With greater support for policing from prefects we might see an end to this.
Introduce recycling stations in dining area and "street"	Mr Gallow, Mr Thompson, Annalise and Louise	Introduced May 2015	Regular visual checks/ photographs/ discussion with Mitie staff.  Consultations with Tutor Groups and End of year survey	A reduction in waste left on tables and floors after break and lunch.	£0 – existing bins relocated and re-designated.	Some significant problems with contamination during introduction. Survey results and discussions indicate a lot of confusion. Will need to target this next year.

Eco-Schools Topic: Waste minimisation

Date Range of this Plan: 2015 - 2016

Our overall aims for this Topic are: Recycle more waste

Action	Who's in charge?	When will it be done by? (if ongoing, when did it start?)	How can we monitor it?	How will we know when we're successful?	How much will it cost?	Did it work? Any ideas for the future?
Introduce classroom paper recycling bins.	Louise Ford and Dio Andre Paderog	Ongoing – began April 2015	Monthly checks to ensure bins are emptied. Results recorded. Consultations with Tutor Groups and End of year survey	Most bins regularly emptied.	£0 Bins previously purchased by Mitie	Problems with emptying bins in some rooms due to access restrictions. Issue when Eco team aren't available. Tutor groups requested to empty own bins. Cleaner's still emptying bin if they are full.
Reduced contamination of classroom recycling bins	Annalise Angus	April 2016	Visual checks during emptying to ensure all bins labelled Consultations with Tutor Groups and End of year survey	All bins will have labels	Photocopying costs and sticky tape	Need to implement possibly via a competition.  In future recycling parties will be issued with notebooks to record number of contaminated bins with a regular notice in bulletin.
Reduce contamination in corridor recycling stations	Annalise Angus	Ongoing – began February 2015	Consultations with Tutor Groups and End of year survey	Greater use made of corridor recycling stations	£10 for bin labelling	Significant problems with contamination during introduction. Reduction in contamination but still a lot of confusion over where to put different litter items.
